TELTRONICS

Notes

Script Release Note

Script Name: M1 Lib
Version: 2.0
Script P/N 130-9500-0074
Date: 02/24/2006

Summary

The m1lib is a proprietary Teltronics library used for communicating with Meridian switches. Please refer to script notes for specific scripts to determine whether this library is required.

Dependencies

The m1lib library requires the following software releases:

IRISnGEN 4.0 or above
SEBea v4.0 or above
NET-PATH 1.0 or above
NOTE: NET-PATH 1.0 requires IRISnGEN 5.1 or higher.

The m1lib library requires the following Teltronics library scripts:

utils.pye v3.0 or higher

Installation

1. Copy the script file, m1lib.pye to the directory \irishome\PythonScripts.

2. Create a new Script in IRISnGEN. Point the script's file path to \irishome\PythonScripts\ m1lib.pye.

3. Set the Script Type to Library.
